

THE ELECTION LAW.

Probably there was no man in the city of Austin that could come any where near the result of the contest when polls closed. There never was in the history of the oldest inhabitants, as much hauling and pulling of voters from one another as there was yesterday, and there never was a time when the right of suffrage was so shamefully disgraced as yesterday, convincing everybody that the sooner the Australian ballot system was adopted the better it would be for everybody, and the less people there would be discharged. We have been informed that in several instances men were seen to barter their manhood for a few paltry dollars, which leads one to believe that the elective franchise without an educational or property qualification is a fraud. There was no more respect paid in many cases to the one hundred foot boundary line than if none had been established. And again we say the sooner the Australian ballot system is established, the better it will be for all concerned. —Austin Reveille.

There are a great many kickers and sore-heads about just now, but the election is over and soon these people will be pulling harmoniously together again. It has been a funny election in Lyon county. Democrats have worked tooth and toe to beat some of the Democratic ticket and Republicans have worked to defeat a portion of the Republican ticket. This kind of work has elected about half the Democratic ticket in this county and given Winters a majority here and also Mason. It is something unexpected by Republicans, but as the Democrats had a good ticket there is no fault to be found with the men elected. —Lyon County Times.

There was open buying of votes on the street of this town last Tuesday. Both parties restored to it. There was paid as high as \$40 apiece for straight votes. None sold for less than \$10 each. It is estimated that over 200 votes were sold in this place alone. Who says the Australian system of voting is not needed in Nevada? —Eureka Sentinel.

The corrupt judiciary of California got a severe dose of public opinion at the election. The rascals who had handed down their decisions for cash in advance were knocked out by the votes of both parties. Thornton and McShaffer, the two Judges who imprisoned the editor of the Star for denouncing them as corrupt, were literally buried out of sight.

The Federated Trades of San Francisco placed a public boycott on some of the leading candidates and flooded the city with circulars calling on everybody to vote against them. The result was quite unexpected. These men who were placed under the ban all ran ahead of their ticket and were elected.

Arrangements are being made for the laying of a double pneumatic line between New York and Philadelphia. Between these two and all intermediate points it is expected that letters, newspapers and small packages will be whirled at the rate of four miles a minute.

It is reported on what is said to be good authority that ex-President Cleveland has accepted the American agency of the British Manufacturers' Exporting and Free Trade Association. The salary will be \$50,000 per annum.

Congressman Springer, of Ill., is already spoken of as successor of Mr. Reed as Speaker of the next House of Representatives.

A man is lecturing in England on the "Desirability of Wealth," and making many converts to the new faith.

Election day was the coldest the Democrats ever saw in Humboldt county.

THE MANHATTAN

Life Insurance Co.,

OF NEW YORK.

ASSETS - - \$12,000,000.

BETTER THAN A

GOVERNMENT BOND.

The MANHATTAN for a limited period will offer the residents of Nevada a Bond Combining Insurance and investment that is in reach of all and which every healthy able-bodied man in the State should possess—for the protection of himself and family.

In explanation read what follows: Suppose a special agent of the U. S. Treasury Department should call on you today and say:

The Government would like to sell you bonds for any amount between \$1,000 and \$30,000 and if it is not convenient for you to make the investment at once, we will allow you to pay for the bonds in

Ten Equal Annual Installments.

And, suppose, in addition to this, the Government, wishing to make this the most desirable investment in the world, should stipulate in the bond, not only to pay them at the end of the term, but in case of your previous death, to pay them to your family and AT THE SAME TIME RELEASE YOUR FAMILY FROM PAYING ANY FURTHER MONEY.

Would you not at once close with such an offer? And yet this is practically what the Manhattan Life Insurance Company, of New York has done and is doing.
